

MOBILE DESKTOP or WALL-MOUNT TERMINAL

ask  now[®]

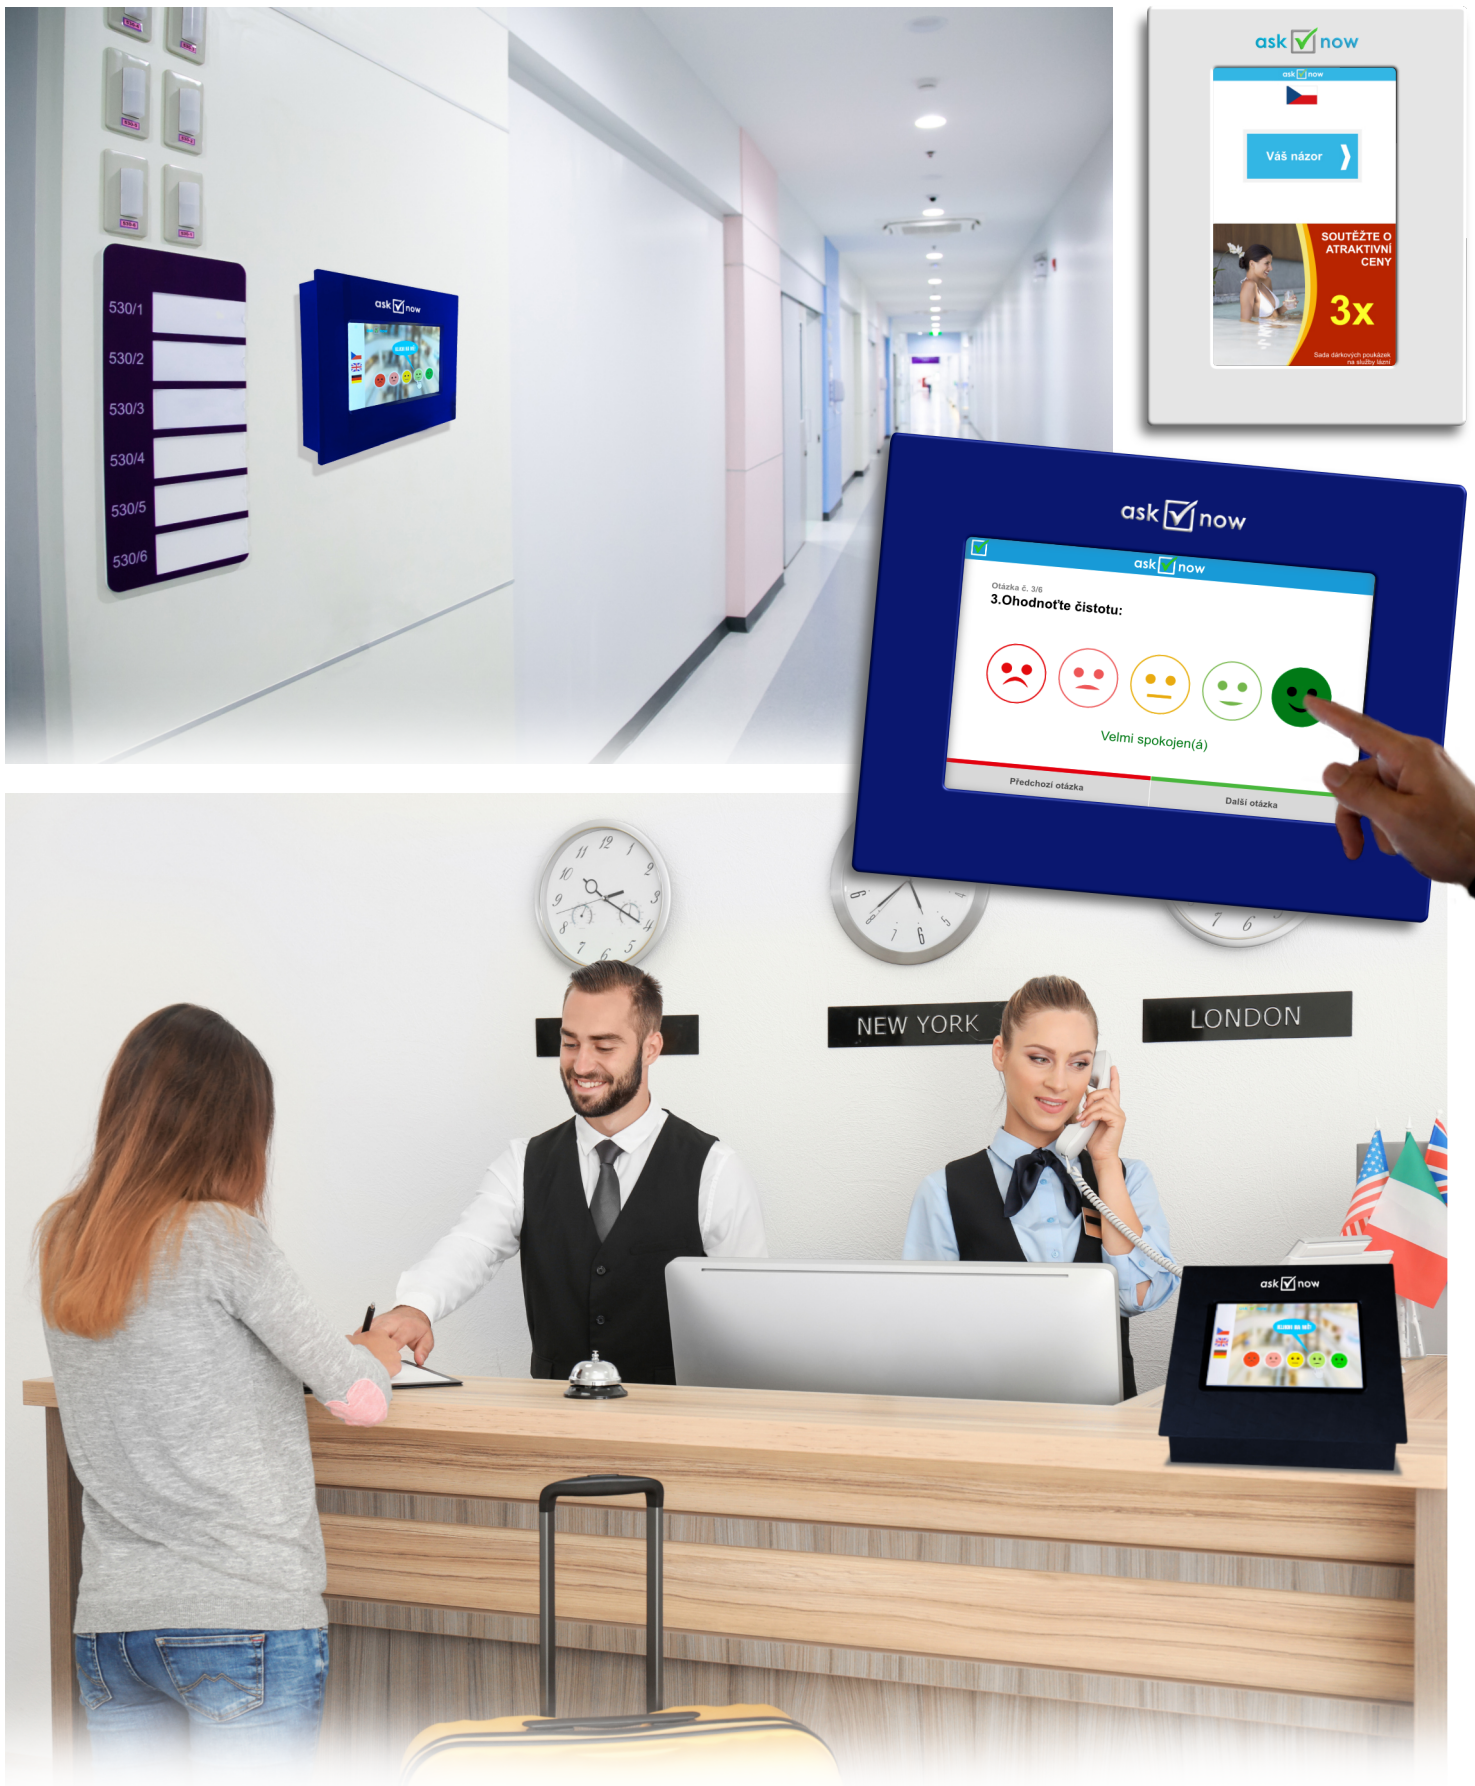

instant feedback

If there is not enough space for our classic AskNow terminal, we have a new practical solution for you: a **mobile desktop** or **Wall-mount terminal**.

The Wall-mount terminal can be easily put anywhere on wall using just two screws. It can be in **horizontal** or **vertical position**, as the **questionnaire** can be set in both of these positions. Full screen **animation** promoting your services, or a certain product can furthermore expand via easy AskNow interaction. It needs to just to be **plug-in electricity**, there is even no need to connect to Wi-Fi, as the tablet use a data SIM card.

The desktop terminal is suitable for placing e.g. on a table, counter, etc. This type of terminal can only be used in horizontal position. There is also the possibility to attach this terminal to the wall. The options of this terminal are the same as the wall-mounted one.
